

Halloween

On last October, 28th, we celebrated Halloween at school as part of the sociocultural knowledge we want our pupils have of the English speaking countries. This year we prepared a Halloween Gymkana. Children from Infant Education 5 years to Primary 6th grade went to the sport centre and participated in five different activities in English on the Halloween topic. For the little ones we had some volunteers to sing for them. We were dressing in Halloween costumes and at the end we got some candy. We hope we all had a good time.

Some photographs can be watched in our school web site.

HUMAN BODY 2º

Children in second grade of Primary Education are learning the different parts of the body, the skeleton, the muscles and the functions of the digestive, respiratory and circulatory systems, then, they developed bilingual projects of each category in groups.

RHYME TIME

This is a rhyme we have been working on during last English lessons in 4th grade. It shows how we use possessives. We wrote the rhyme and drew a picture of it. We love bikes!

*His bike, her bike,
your bike, my bike.
Black bikes, white bikes,
Big and small bikes.
Everybody here's got different bikes
But I like my bike best of all!*

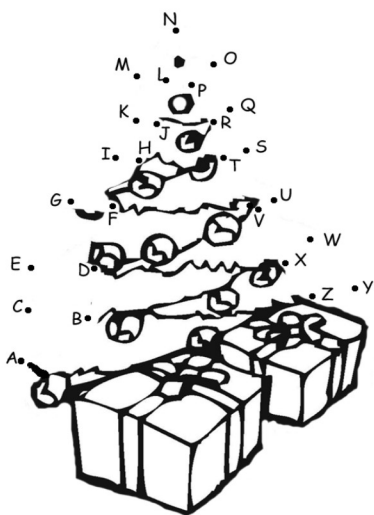

HEALTHY DIET

In 4th grade, we learnt a lot of things about food. We know how to make a healthy diet because we know which food is healthy or unhealthy. The different groups of food are carbohydrates, fats, proteins and vitamins.

Christmas Tree ABCs

Last 24th of November, five years old pupils celebrated Thanksgiving Day. They watched 'The Chipmunks. The First Thanksgiving Day' and this could teach them why American people celebrate 'Thanksgiving Day'. After watching the movie, they painted some vegetables and fruits to make their own cornucopia.
